

The Making of Buckhead Atlanta

A catalyst for the resurgence of the Atlanta market, these 6 city blocks, now known as Buckhead Atlanta, were transformed from a vacant site to a thriving multi-purpose destination in just 16 short months. The overall degree of complexity, volume of manhours managed, precise attention to detail and superior level of finished incorporated into this luxury development, make its speed-to-market a true testament to the dedication of Balfour Beatty Construction and the workers laboring to create the iconic destination it is today. Our people stay true to our purpose: "To be a Relentless Ally for the success of each and every dream we are entrusted to build."

Balfour Beatty
Construction

342 MILES

Enough concrete to make a 4' wide side walk from Buckhead to Memphis, TN!

60,000 SQUARE FEET OF PAVERS

9,000+

Workers oriented on site throughout the duration of the project.

1,600,000

Total manhours worked to date with zero lost time injuries.

190,000 SQ FEET OF GLASS

Enough to cover a falcon's football field 4 times!

8,300 TONS OF STEEL

The equivalent of 600 Greyhound buses.

18,000 CRANE HOURS OF OPERATION
